Braniak Gym

Achieving \$37,724/month in recurring revenue

Great app for reoccurring payments. Developers and programmers respond very fast and fix any problems that may arise. Highly recommend for any gym searching for a check in system.

Greg Rangel, Flex Fitness and Health

This is a great app for a recurring payments and also for storing customer's payment cards on file so they don't have to carry money on them. You can also send promotional texts to the guests throughout the month! The best part is the incredible staff that is constantly on hand for your questions, the best customer service i have ever seen from this bunch!
