Deepti Bedi, Arch Threading & Wax Center

We love this software. It does exactly what it promises. Customer service is FAST and Loyalzoo has never let me down. Our members choose a plan and then we track their used rewards. I would recommend this software to other businesses.

Kari Newman, Iowa IV

Best software for recurring payments. If you have a membership business I strongly recommend Loyalzoo. It has great features where customers can add their own credit card information on their own for superior security. Great customer service.
